PROTECT YOUR FAMILY FROM HARMFUL MOLD, MILDEW, BUGS, SPIDERS, AND SOIL GASES WHILE DECREASING YOUR ENERGY COSTS YEAR ROUND.

Prepare ground

Preparation

- After removal of debris, smooth the surface to establish a rough grade

Drain Fabric

Drain Fabric

- Prevents liner from "sticking" to soil
- Enhances water drainage beneath liner
- 100% polypropylene fibers - won't rot or decay
- Cushions floor - protects liner, hands and knees

Pro Plus Wall Liner

STS Pro-Shield Wall Liner

- Tax credit certified
- Zero Perm
- Seals out moisture
- 25 yr. manufacturer's warranty
- Antimicrobial - won't support mold growth
- Insulates walls and reflects heat
- Option of white or aluminum side facing in

Secure Liner

STS Super Bond

- Attaches Pro-Shield Liner to walls
- Never dries out
- Provides an air tight seal
- Pinned to assist adhesion

STS Pro-Shield Floor Liner

- 90 mil thick
- Seals out moisture and soil gases
- Insulates floor - reduces energy costs
- Antimicrobial - won't support mold growth

Pro Plus Floor Liner

Seam Lock

Seaming Tape

Seam Lock & Permanent Seaming Tape

- Permanently seals floor liner seams
- Non-toxic/no odors
- Never dries out, provides an air tight seal
- Seals out bugs, spiders and soil gases

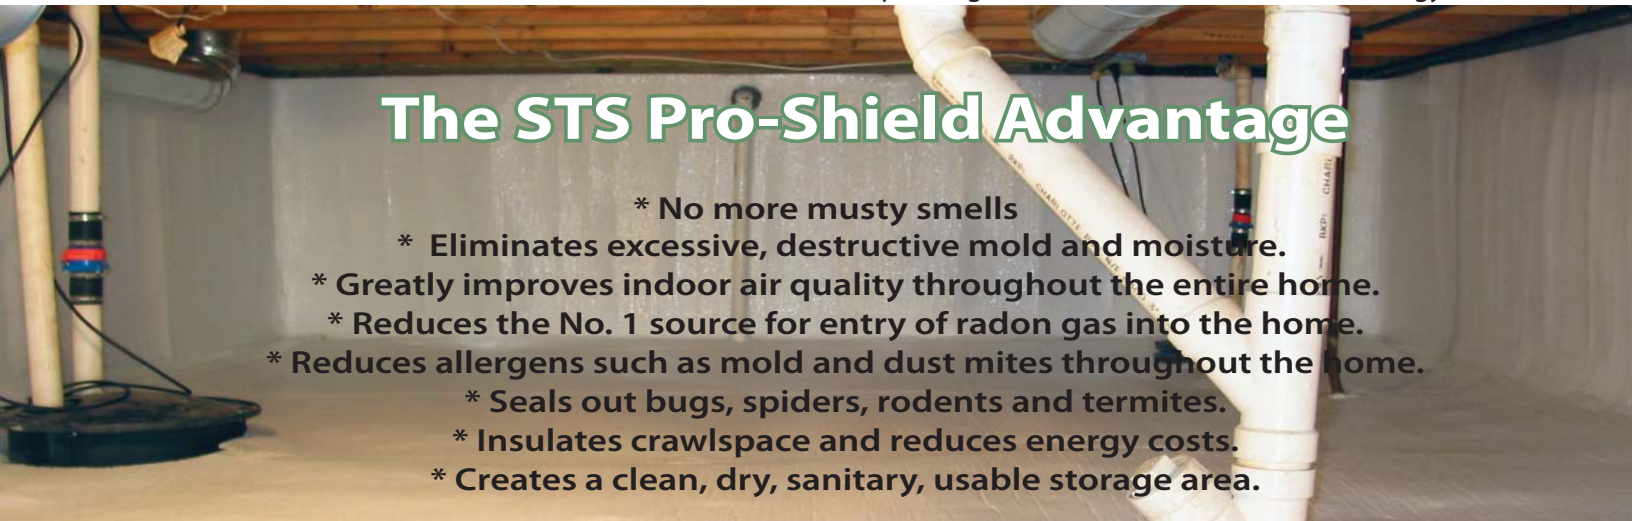

Heat Shield

STS Pro-Shield Heat Shield

- 99% pure aluminum backing
- Reflects heat back into home
- Keeps living area floors warm
- Reduces energy costs

The STS Pro-Shield Advantage

- * No more musty smells
- * Eliminates excessive, destructive mold and moisture.
- * Greatly improves indoor air quality throughout the entire home.
- * Reduces the No. 1 source for entry of radon gas into the home.
- * Reduces allergens such as mold and dust mites throughout the home.
 - * Seals out bugs, spiders, rodents and termites.
 - * Insulates crawlspace and reduces energy costs.
 - * Creates a clean, dry, sanitary, usable storage area.

STS Pro-Shield System vs Other Systems

	STS Pro-Shield System	Others
Zero perm?	Yes - 0.000 perm rating - stops all moisture.	No
Antimicrobial?	Yes - will not support growth of mold, mildew or fungus.	No
Insulates crawl space (a major source of heat loss)?	Yes - insulates and reflects heat.	No
Heat Shield for crawl space ceiling?	Yes - reduces heat loss through living space floors by over 50%.	No
Drain Fabric beneath liner?	Yes - disperses soil gases, enhances drainage, cushions floor and protects liner.	No
25 yera manufacturer's warranty?	Yes - no fine print - 25 year warranty	No

AIR QUALITY

DUST MITES

Mites are tiny microscopic animals that leave behind fecal matter and disintegrating body parts, powerful allergens when inhaled.

Like mold, dust mites must have moisture to survive. Your main weapon against Dust Mites is to eliminate the source of moisture in the home.

The STS Pro-Shield System will permanently seal out moisture from the crawl space area, the #1 source of moisture entry in the home.

Amazingly, over 50% of your home's air comes from your crawl space.

As warm air rises, cool air from the crawl space is sucked into the living areas of your home. Called the "stack effect", it's the same way a chimney works. This, combined with other factors, means a significant amount of the air you breathe actually came from your crawl space.

By reducing moisture, radon gas, mold, mildew and improving the overall air quality in your crawl space, the air you breathe in your home will be cleaner and healthier.

MOLD MILDEW

Scientific studies all agree: the key to mold control is moisture control.

Molds produce allergens, irritants, and potentially toxic substances. Mold is present in every home, as well as outdoors, but without moisture it can not grow to harmful levels.

A dirt/stone crawl space is by far the #1 source of moisture in any home, letting in gallons of water each day in the form of water vapor. The STS Pro-Shield System will eliminate this source of moisture and rid your home of musty smells from mold and mildew.
